*We customize all care plans.*

MAS Home Care assists aging seniors and other homebound individuals, enabling them to maintain their independence and dignity in a setting in which they are most at ease - their own home. We provide the extra support you need to ensure your loved ones are safe and well cared for. We get to know our clients and their families through a personal evaluation of strengths and weaknesses, likes and dislikes. From your initial consultation, we create an individualized plan of care and match a qualified and compatible Certified Nursing Assistant. Once implemented, we conduct routine in-home assessments and openly communicate with family members, nurses, and your extended network of medical advisors to ensure excellent care.

We understand the importance in choosing an agency that fits your needs. We are a family owned and operated agency, and we are unified by a vision to strengthen our communities by providing compassionate assistance to the elderly and the chronically ill.
